Where to connect in the future?

Deloitte Access Economics

Growth and
opportunity in
Australian
International
Education

A report prepared for
Austrade

December 2015

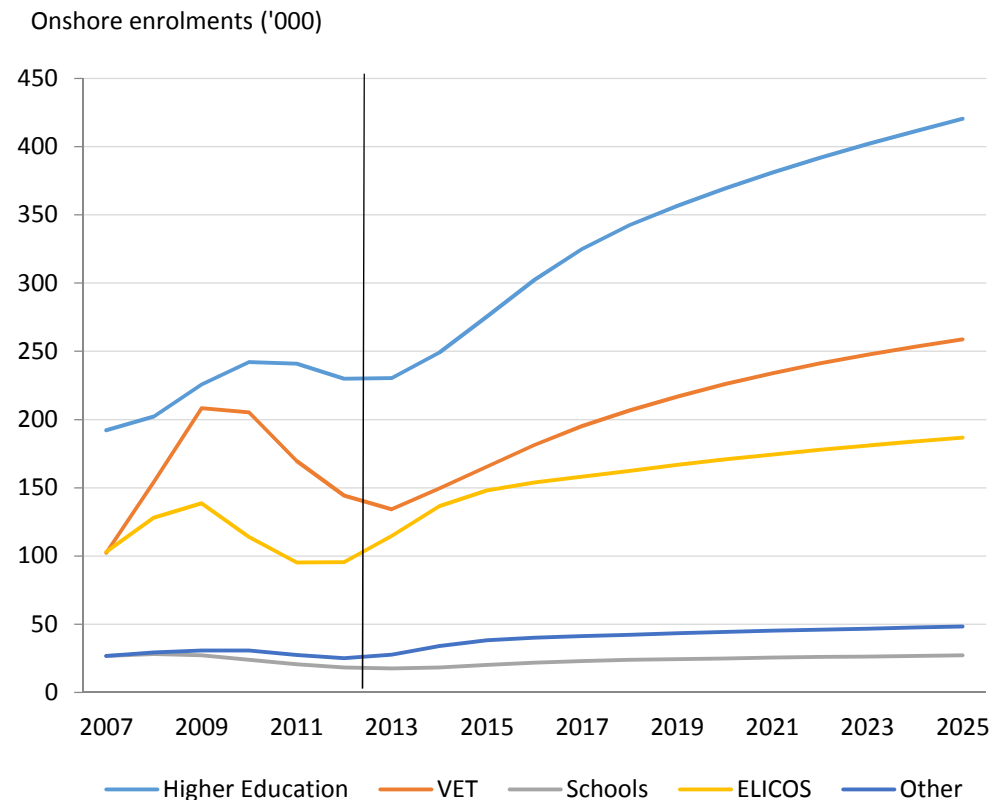

EduWorld

Deloitte.

How large is the onshore opportunity for Australia?

Australia has **historically performed strongly** – consistently ranking as a destination of choice for many major source markets

- Australia's onshore enrolments international education are forecast to grow to **940,000 by 2025** (3.8% average annual growth)
 - This amounts to export earnings in excess of \$33 billion – almost doubling today's levels

ELICOS Focus

- Strong pathways from ELICOS into further study in higher education and VET will help to drive growth in commencements and enrolments
- Enrolments are forecast to grow to 187,000 by 2025 (2.4% per annum)

How large is the onshore opportunity for Australia?

Degrees of Deception, Four Corners, ABC

‘After meeting universities’ entry requirements, many don’t have the level of English needed to successfully undertake a degree course’.

April 2015

‘Continuous pressure not to be too demanding when it comes to language skills’

‘so there is continuous pressure not to be too demanding when it comes to language skills, and if at all possible, to pass students as they undertake their degree-courses’

- Is Australia hooked on international students?

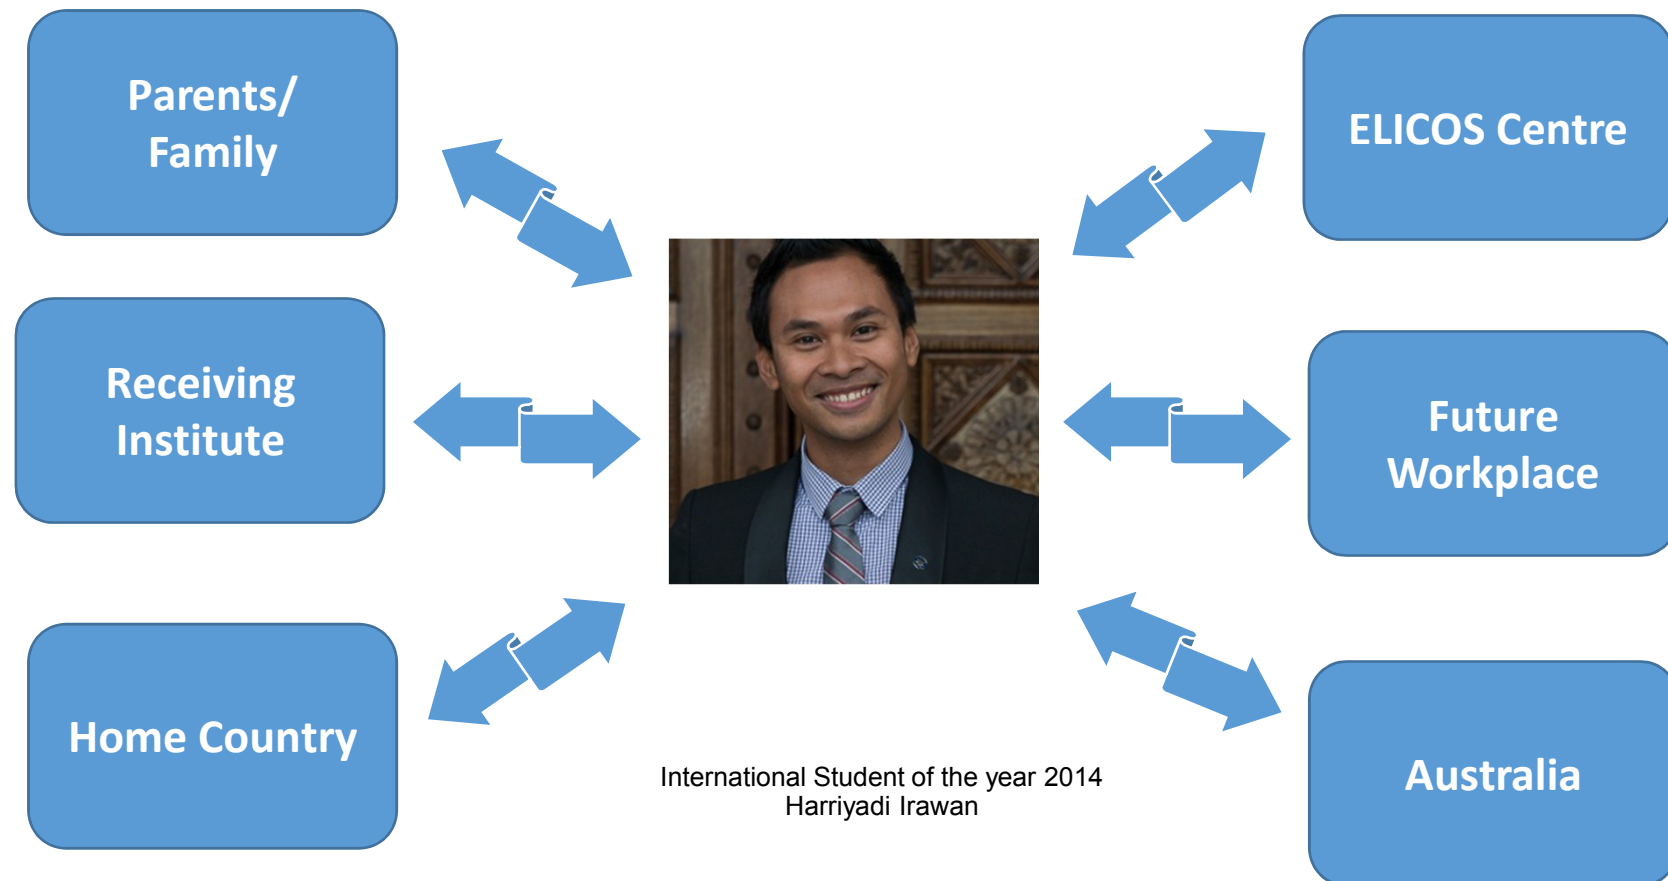

By Unconventional Economist in Australian Economy

August, 2015.

A shared responsibility

Stakeholders

*How can we, **as an industry**, help ensure international students are prepared for success in their further studies?*

*ELICOS Success through **connectivity**:
Thinking together, working together to
support **student readiness & success***

Guide to Best Practice in Direct Entry Programs in ELICOS

Guide to Best Practice in 'Direct Entry' Programs 2016

Guide to Best Practice in 'Direct Entry' Programs in Moderation and Validation

2016

Project Writer

Katherine Brandon
Professional Support & Development Officer, English Australia
Update
Sophie O'Keefe
Professional Support & Development Officer, English Australia

Project Working Group

From English Australia member colleges:
Sarah Bissell, Griffith English Language Institute, QLD
Jon Fawcett, Navitas English
Cynthia Kralik, Monash University ELC, VIC
Sharon Luhr, Australia Pacific College, NSW
Rachel Mackie, Swinburne College, VIC
Angela Moran, Deakin University ELL, VIC
Stephen Walker, ICTE University of Queensland, QLD
Carol Wing-Lun, CET University of Sydney, NSW

Project Writers

Juliana Kendi, Director of Studies, ELICOS Programs, La Trobe
Melbourne

Dianne McKeagney, Director of Studies VU English, Victoria
University

Nick Philippou, Director of Studies, Hawthorn Melbourne

Aims of the Guide:

- ***Ensure reflection on the delivery & quality of programs***
- ***Support ELICOS industry in development of policies, procedures and practices***
- ***Provide a benchmarking tool***
- ***Connect colleges through a community of best practice***
- ***Promote connectivity between ELICOS providers and all stakeholders in providing high quality programs***

5 areas of focus:

A. Delivery Context

B. Program structure, content and methodology

C. Student placement, progress and achievement

D. Resourcing

E. Quality Assurance Moderation and Validation

(internal and external)

A. Delivery Context

Best practice:

- ELICOS provider and receiving institutes work as partners in the shaping and development of the ELICOS provider's curriculum, policy and procedures
 - *Imperative in all contexts for all provider types*

Example:

College C and its receiving institution both implement the i-graduate International Student Barometer

*Through collaboration **use the data** to inform improvements of their programs and services*

B. Program structure, content and methodology

Best practice:

ELICOS providers consult regularly with receiving institutions to ensure the structure, content, outcomes and delivery of their programs remain relevant and effective.

Example:

One receiving institution requested that students are better prepared for group work. The pathway college developed an online group work culture. Groups of 4 students plan, research and note-take for assignments.

C. Student placement, progress and achievement

Best practice:

1. Shared and clear understanding difference between

A. language proficiency at a point in time

B. competency in academic language in DEP

2. Sharing of information on student progress

Example:

One College makes information from consultations with students re progress and support offered available to RI.

D. Resourcing

Best Practice:

1. Key resource: Mutual support for ELICOS provider & for receiving institute

Example: One ELICOS provider that has a direct entry agreement with a VET provider:

- a. Uses the relationship to inform the development of the ELICOS program
- b. The RTO utilises the ELICOS provider in ongoing English support for VET students.

E. Quality Assurance

External Validation of students' levels of achievement

Three main features external validation:

1. Benchmarking
2. Input of experts
3. Student feedback

Result: Continuous improvement

External Validation

Outcomes Benchmarking: The guide considers

Forms of outcomes benchmarking	Frequency	Accountability	Funding
Periodic external testing			
Tracer studies			
Benchmarking with different colleges			

External Validation: Outcomes Benchmarking Best practice example

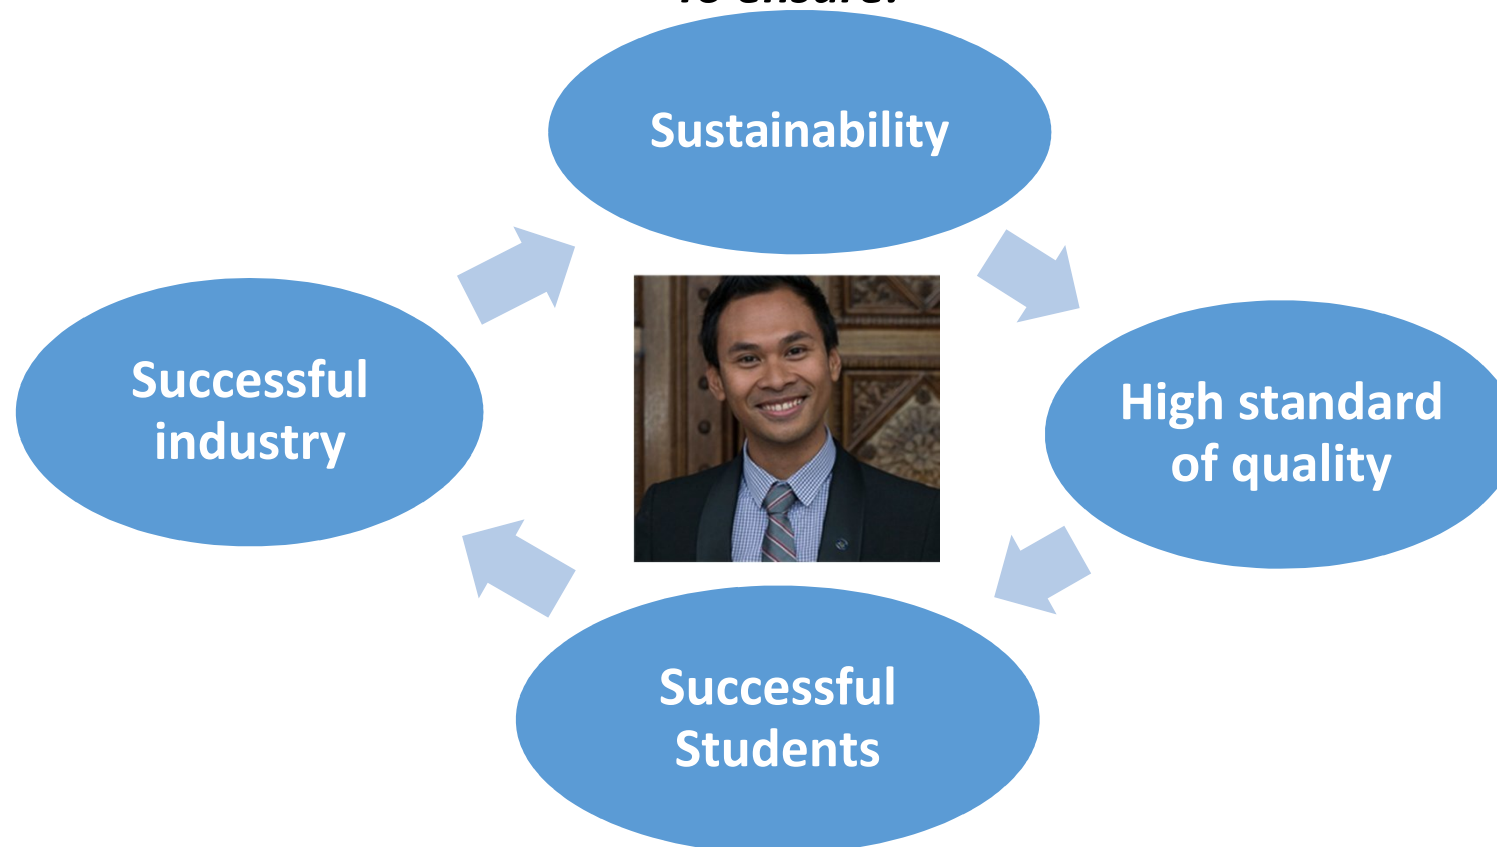

Forms of outcomes benchmarking	Frequency	Accountability	Funding
Periodic external testing College A	<i>Annually</i>	<i>Results in ELICOS provider's academic board report</i>	<i>ELICOS provider</i>
Tracer studies College A	<i>Biennially</i>	<i>Results in academic board reports: RI & ELICOS college</i>	<i>Receiving institution</i>
Benchmarking with different colleges College B	<i>Biannually</i>	<i>Onus on each ELICOS college</i>	<i>Staff resources shared</i>

Connectivity

for continuous improvement

Key to Best Practice in Direct Entry Programs
