5 Key areas - Artificial intelligence in Marketing Education

The value of the international student market has increased 22 per cent since 2016 and is now worth $32.2 billion a year.

1. Voice-enabled readiness
2. Teaching Assistants (Closed Groups)
3. BOTS for acquisition 24 x 7
4. Audience segmentation
5. Enhanced UX (Pre-During-After)

IBM Watson Enlight for Educators

IBM Watson Enlight, built for teachers, by teachers, is a planning tool that supports teachers with curated, personalized learning content and activities to align with each student’s needs. Teachers have access to key insights into students’ academic strengths and weaknesses as they create individualized learning experiences.

Learn more

IBM Watson Education is bringing education into the cognitive era.

We are transforming the learning experience through personalization. Cognitive solutions that understand, reason and learn help educators gain insights into the learning styles, preferences, and aptitude of every student. The results are holistic learning paths, for every learner, through their lifelong learning journey.

IBM Watson Element for Educators

IBM Watson Element, an IBM MobileFirst education app for iOS, provides teachers with a single 360-degree view of students by consolidating various academic, social, and behavioral data sources. These insights generate suggestions on how best to help each student so they receive targeted support in the classroom more quickly.
